

WESTIN HILL MEDIAN IMPROVEMENT
GVB IFB 2020-003

ADDENDUM No. 2

December 18, 2019

GVB OFFICIAL RESPONSE TO QUESTIONS POSED
BY 5:00 P.M. ON TUESDAY, DECEMBER 10, 2019

Question 1:

SOW specifies that grass species to be planted is Centipede grass. That species is not available on island as sod and must be hydro-seeded. Will the government accept the recommended Zoysiagrasses, Zoysia tenuifolia (locally known as Japanese grass) or Zoysia japonica (known as common zoysia)?

GVB Response:

Refer to Appendix A (General Specifications, #3.d) of the IFB which states “grass species to be planted is Centipede grass”. Note: Hydro-seeding is acceptable but must be kept weed-free.

Question 2:

Can we have an electronic copy of the Pre-Bid PowerPoint presentation?

GVB Response:

Yes. Please see attached PowerPoint Presentation.
