WHAT IS GUAM SAFE CERTIFIED?

Guam Safe Certified is the official local designation, which identifies establishments that are in compliance and have care and pride in following government health and safety guidelines.

WHAT IS THE WTTC SAFE TRAVELS STAMP?

The World Travel & Tourism Council (WTTC) created the first ever global safety and hygiene stamp. This stamp enables travelers to recognize destinations around the world that have adopted standardized health and hygiene protocols.

Guam Visitors Bureau (GVB) serves as the official organization to advocate for the implementation of these protocols in Guam and to issue the Guam Safe certification and Safe Travels stamp to local businesses.

100
approved
as of May 26

BENEFITS

- Guam Safe Certified is a branding initiative that endorses your business' health and safety practices at the local level and encourages island pride!
- The Safe Travels initiative is globally recognized & instills a level of confidence in both the tourism trade and international visitors.
- Both initiatives help to rebuild trust among tourists and within the tourism sector.
- Logos can be used on websites, emails, and digital channels can generate business materials, videos, social media campaigns.
- **FREE** of charge to all eligible businesses.

The Road To Recovery & Reopening - Taiwanese Outbound Traveler Perspectives with KKday

Hosted by

Guam Visitors Bureau

Jun 9th 2021

10:00 AM - 11:30 AM(GMT+10)

The webinar will be lead by Brenda Hsuan, the Senior Business Development Manager of KKday Taiwan to share more about the Taiwan domestic and outbound tourism status and insights.

GVB Air V&V Briefing -
Learn the latest news on
GVB's vaccination tourism campaign

IN THIS WORKSHOP, WE WILL COVER THE FOLLOWING TOPICS:

- The Taiwan and Asian Pacific traveler mindset and expectation during Covid.
- The insights into the domestic tourism trends in Taiwan today.
- Tips and advice for Guam to welcome the Taiwanese visitors again.
- Case study of the Taiwan and Palau Corridor.

***Tumon Priorities:
Reform, Reclaim,
Recover***

[Past Issues:
Weekly Industry
Recovery Reports](#)

“Håfa Adai! Remember that rat-infested parking garage that’s been a hazardous eyesore and squatter’s haven on the edge of Tumon Bay for nearly 30 years? At long last, the Department of Public Works has cited the landlords and is enforcing its reclamation, on Gov. Lou Leon Guerrero’s orders.

In fact, the new site owners have begun removing debris from the structure and are now preparing to secure its perimeter. Engineers have determined the once-abandoned building is still salvageable. So, the landlords have committed to rehabilitating it and incorporating it into a future development. Meanwhile, Public Works is finally ending Lower Tumon’s infamous street flooding. Gov. Leon Guerrero has asked Public Works to shoulder \$100,000 in costs, so we can work with GVB’s contractors to unclog Tumon’s stormwater-runoff system.

And over the next few years, the green-friendly redevelopment of flood-prone Matapang Beach Park will coincide with the replacement of this drainage infrastructure.”

MARKET INTELLIGENCE REPORT

As of May 28 and may be subject to change.

MARKETS AT-A-GLANCE

MARKETS AT-A-GLANCE

JAPAN

- Okinawa prefecture placed under a state emergency due to the rapid increase of COVID-19 cases; emergency declaration may be extended until June 20 for all 10 prefectures
- Average number of new infections in Tokyo has decreased by 20% in the past seven days
- Total number of vaccination doses administered exceeded 7.9 million (as of May 20)
- On May 21, Japan formally approved the Moderna and AstraZeneca vaccines
- A large-scale vaccination center that can inoculate 10,000 people per day will open in Tokyo's Otemachi district on May 24; similar large-scale center is established in Osaka as well
- Between May and June, 100 million doses of the Pfizer vaccination will be issued
- Officials In Fukuoka are working to set up 24-hour vaccination centers to be operational in July for the general public; general public vaccinations begin in August depending on prefecture
- Number of people infected with the COVID-19 variant exceeded 8,000 in the last week; majority of new infections are caused by these variants, such as the N501Y mutation
- Meijo University developed a new technology that can identify which mutant strains are infected in about 90 minutes using a PCR test device and a new reagent
- Air seat capacity forecast shown in appendix
- United Airlines flights now suspended until July 31, with exception of UA196/197 which continues its daily operation; tour cancellation extended in response to flight suspensions
- Refer to appendix for social media insights

TAIWAN

- A total of 270 patients confirmed with COVID-19 infection have been classified as having severe cases of the disease, while 66 are currently on ventilators
- Taipei City government announced a ban on all on-site dining and drinking in the city in response to the continued increase in domestically transmitted coronavirus cases in the capital city
- The Ministry of Foreign Affairs (MOFA) thanked a bipartisan group of lawmakers in the U.S. Congress for urging Washington to share its surplus of COVID-19 vaccines with Taiwan
- CECC measures for following up on persons at risk of infection and restrictions of citizens and non-citizens entering Taiwan are shown in appendix
- Changes to upcoming fairs are shown in appendix

SOUTH KOREA

- New daily coronavirus cases stayed below 600 for two straight days on fewer tests over the weekend; positive rate for two weeks is below 1%
- Efforts to keep the daily figure below 1,000 through June are being made, while speeding up inoculations of seniors
- Total of 3.79 million people, or 7.4%, have received their first shots; AstraZeneca's vaccine given to 2.06 million people and Pfizer to 1.73 million
- Social distancing measure extended until June 13
- KDCA plans to open a real-time reservation system using "no-show vaccines" that remain unused at clinics and hospitals
- Moderna COVID-19 vaccine approved on May 21; 197,000 doses of the Pfizer COVID-19 vaccine arrived (part of deal with the COVAX facility)
- Refer to appendix for travel trade updates
- Total May outbound seat capacity remained at 756 seats, with Jin Air flying 4 times
- Please refer to appendix for May PR/SNS calendar

PHILIPPINES

- As of May 14, President Duterte eased lockdown in the bustling capital and adjacent provinces to fight economic recession and hunger but still barred public gatherings
- Department of Health will implement a policy in which local governments will not announce in advance the brand of COVID-19 doses they will roll out in vaccination sites
- Philippine Red Cross clarifies it is not "selling" Moderna doses
- Department of Health counts on private sector to speed up vaccine rollout
- Inclusion of food delivery riders and public utility vehicle drivers in the next priority list for COVID-19 vaccination will be crucial to keep the economy going
- The Philippines received 500,000 more doses of CoronaVac, bringing the total number of the China-made vaccine to 5.5 million
- Only three out of 10 Filipinos are willing to get COVID-19 shots with the rest either still hesitating or refusing to be inoculated two months into the vaccine rollout in the country

DETAILS ARE FOUND IN THE APPENDIX

MARKETS AT-A-GLANCE

Share of people who received at least one dose of COVID-19 vaccine

Share of the total population that received at least one vaccine dose. This may not equal the share that are fully vaccinated if the vaccine requires two doses.

GUAM ENTRY PROTOCOLS

LAST UPDATED: 5/14/2021 at 15:00

PROPOSED TRANSITION IN TRAVELER QUARANTINE INTO GUAM

Criteria for Consideration of Implementing Changes:

1. Achieve >50% of Adult Eligible Population Fully Vaccinated
2. Maintain COVID Hospitalizations <10
3. Maintain 14-Day COVID Death Sum <5
(Subject to Change at Anytime)

***Fully Immunized** defined as 2-weeks after 2nd dose of Pfizer or Moderna, or single dose of J&J/Janssen

**Documentations Required for Exemption From Quarantine via COVID-19 Vaccination Include:

- Photo identification, **AND**
- COVID-19 Vaccination Record Card, **AND**
- ***Secondary form of COVID-19 vaccine verification, **AND**
- Declaration of Individual Attesting to COVID-19 vaccination, signed under penalty of perjury

***Individuals vaccinated in Guam, whose vaccination information are verifiable via WebIZ application, will **NOT** be required to present a secondary form of vaccine verification.

For everyone else, acceptable secondary form of COVID-19 vaccine verification includes the following:

1. Vaccinating health authority record; OR,
2. Vaccinating provider letter; OR,
3. Receipt of COVID-19 vaccine administered; OR,
4. Other form of secondary verification, to be approved at the reviewing officer's discretion.

[Click here for Declaration of Individual Attesting to COVID19 Vaccination form](#)

*Fully Immunized with US FDA Authorized Vaccine and **Proof of Vaccination?

GUAM ENTRY PROTOCOLS

▶ ALL INDIVIDUALS ENTERING GUAM BY AIR OR SEA ARE **SUBJECT TO A 10-DAY QUARANTINE PERIOD** REGARDLESS OF PRE-ARRIVAL COVID-19 TEST RESULTS, **EXCEPT** as provided herein:

1. **INDIVIDUALS WITH IMMEDIATE PROOF OF COVID-19 VACCINATION:** Those who are fully vaccinated with a U.S. FDA authorized COVID-19 vaccine may be exempt from quarantine. Individuals are considered fully vaccinated 2 weeks after their second dose in a 2-dose series, or 2 weeks after a single-dose vaccine. Those seeking exemption from quarantine must present:
 - a) Photo identification (e.g. passport, driver's license, state-issued identification);
 - b) COVID-19 vaccination record card, which includes the patient name, date of birth, vaccination date(s), and the brand of COVID-19 vaccine administered;
 - c) Secondary form of COVID-19 vaccine verification such as Vaccinating Health Authority record, vaccinating provider letter, receipt of COVID-19 vaccine administered or another form of secondary verification, to be approved at the reviewing officer's discretion

DECLARATION OF INDIVIDUAL ATTESTING TO COVID-19 VACCINATION, signed under penalty of perjury

2. **INDIVIDUALS WITH A PREVIOUS COVID-19 INFECTION:** Those who have contracted and recovered from COVID-19 within the three (3) months preceding their arrival in Guam, and who show no symptoms of infection may be eligible for exemption from quarantine, provided that they present:
 2. Photo identification (e.g. passport, driver's license, state-issued identification);
 3. Valid positive COVID-19 PCR test result collected between 10 to 90 days prior to arrival;
 4. Valid negative COVID-19 PCR test result collected within 10 days prior to arrival and a subsequent clearance from a physician, clinic or health department

Individuals vaccinated in Guam, whose vaccination information are verifiable utilizing the WebIZ Application will **not be required to present a secondary form of vaccine verification.*

▶ **DAY 6 TEST FOR CLEARANCE FROM QUARANTINE** (*no cost to traveler*)

1. If **negative** test result, individual will be cleared from quarantine but must comply with symptom monitoring for 14 days after arrival via Sara Alert and is encouraged to download the Guam COVID Alert App
2. If **positive** test result, individual shall be transferred to Government of Guam Isolation Facility
3. In the event the individual **declines** to receive a COVID-19 test while in the QFAC, such individual shall **complete the full 10-day quarantine in the QFAC**

▶ **GOVERNMENT QUARANTINE FACILITIES, AND ALL SERVICES INCLUDED THEREIN, ARE PROVIDED AT NO COST TO TRAVELER**

TRANSITING PASSENGERS

- Transiting passengers will remain in a designated section of the airport facility while awaiting connecting flights *less than 13 hours* from landing time to departure time.
- Transiting passengers awaiting connecting flights in *excess of 13 hours* will quarantine at the QFAC until they are transported to the GIAA to transit off Guam

MARKETS: ENTRY PROTOCOLS

JAPAN ENTRY MEASURES

- **Secure negative certificate 72 hours prior to departure; airline to verify; test again upon arrival**

Approved tests:

1. Real time RT-PCR: real time reverse transcription PCR
2. LAMP: Loop-mediated Isothermal Amplification
3. TMA: Transcription Mediated Amplification
4. TRC: Transcription Reverse-transcription Concerted reaction
5. Smart Amp: Smart Amplification process
6. NEAR: Nicking Enzyme Amplification Reaction

- **Download the following smartphone apps***

1. OSSMA (location reporting and assistance app)
 2. Skype (answering video calls from quarantine office)
 3. COVID-19 Contact App (COCOA)
 4. Google Maps (location data when positive)
- * Traveler will be required to rent a smartphone if they do not own one

- For Japanese nationals who have negative result in both tests, leave the facility and are requested to **self-quarantine at home** during the remaining period of 14 days after entering Japan

TAIWAN ENTRY MEASURES

| Traveler Type | History of Travel | Eligible to Enter Taiwan? | Requirement upon Arrival |
|------------------|---|---------------------------|---|
| Taiwan National | Departure from any international port | Yes | 1. a COVID-19 RT-PCR negative test report issued within 3 working days of their incoming flight's scheduled departure time 2. strengthened quarantine measures ^{note 1, 2} |
| Traveler Type | Credential | Eligible to Enter Taiwan? | Requirement |
| | • ARC means R.O.C. (Taiwan) Resident Certificate | | |
| | Holder of ARC | Yes | 1. a COVID-19 RT-PCR negative test report issued within 3 working days of their incoming flight's scheduled departure time 2. strengthened quarantine measures ^{note 1, 2} |
| Foreign National | Non-ARC holder | Yes | 1. Visitors approved by Ministry of Foreign Affairs to enter Taiwan for reasons other than tourism or regular social visits. 2. Students approved by Ministry of Education ^{note 3} 3. International patient (including companions) approved by Ministry of Health and Welfare ^{note 3} |
| | Purpose of entry to be tourism or regular social visits | No | |

- **Requires a negative PCR test 72 hours prior to departure**
- **Fill out electronic health declaration form prior to departure via Quarantine System for Entry @ <https://hdhq.mohw.gov.tw>**
- Travelers are required to make an affidavit stating that the location of their intended **14-day quarantine** in Taiwan meets relevant regulations
- All travelers will be quarantined for 14 days with the following exceptions:
 - Short-term business travelers eligible for shortened quarantine periods in Taiwan with advance permission for shorten quarantine period

SOUTH KOREA ENTRY MEASURES

TRAVELERS TO KOREA

- As of May 5 – those vaccinated in South Korea can bypass quarantine
- Secure negative certificate within 72 hours before departure (English or Korean is acceptable)
Approved test:
 - PCR • LAMP
 - TMA • SDA
- Korean nationals that arrive with a negative test will be required to undergo **2-week quarantine** at a facility and charged KRW 1.68 million per person (est. \$1,500 USD)
- Korean nationals and long-term foreign residents with registered residence in Korea: **14-day self isolation**

QUARANTINE

“Special Entry Procedure”

1. Complete a health status questionnaire and special quarantine report in-flight.
2. Airport conducts temperature screening. Immigrants submit the health status questionnaire.
3. Check the special quarantine report (residence in Korea, contact information, previous travel, etc.) Install a safety protection app for self quarantine, and submit Korean contact information to confirm compliance with regular self-isolation. If a fever is detected, the individual will be placed in a separate waiting room to undergo COVID-19 testing. Upon confirmation, the individual will be transferred to a quarantine hospital or facility.

“Negative COVID-19 PCR test result”

PR-PCT Test Certificate must indicate:

1. Passenger full name and date of birth as indicated in their passport
2. Test type
3. Test date
4. Test result
5. Issuance date
6. Name of testing institution with stamp/seal

“Baggage claim & Transportation”

- Passengers arriving from overseas may use designated modes of transportation, such as airport buses, shuttle buses to Gwangmyeong KTX Station, and special taxis.

TOTAL THREE (3) PCR TESTS REQUIRED:

1. PCR test within 72 hours before departure from destination of origin
2. PCR test within 24 hours upon arrival into Korea
3. PCR test a day before quarantine release

PHILIPPINES ENTRY MEASURES

Filipino nationals

- Philippine Passport
- Proof of citizenship
- Pre-booked quarantine hotel accredited by Tourism and Health Agencies for at least 10 days
- RT-PCR Test on the 7th day of arrival/quarantine (at traveler's expense, except for OFWs, which shall be shouldered by OWWA/LMAs)

- Must have negative COVID-19 test within 72-hours prior to departure; subject to a RT-PCR test on arrival at their own expense
- Must be pre-booked at an accredited quarantine facility/hotel for at least 10 days at the traveler's expense;
<https://www.thepoortraveler.net/2020/07/doh-accredited-hotels-quarantine-manila/>
 - This does not apply to nationals of the Philippines who are Overseas Filipino Workers (OFW) and passengers with a 9(E) visa
- Must present an electronic "Case Investigation Form" upon arrival
- Must undergo RT-PCR testing on day 7 after arrival and quarantine for 14 days
- Passengers must install the contact tracing app 'TRAZE' on their personal device before departure

II. NOT ALLOWED TO TRAVEL TO THE PHILIPPINES

The travel restriction imposed by IATF Resolution No. 112, s. 2021 for **ALL travelers coming from India or those with travel history in India** within the last fourteen (14) days preceding arrival in the Philippines shall remain in force.

All of the foregoing is without prejudice to the exercise of the mandate of the Bureau of Immigration in Arrival and Departure Formalities.

ADVISORY

REVISED GUIDELINES AS PER IATF-MEID RESOLUTION NO. 113 SERIES OF 2021

In view of the foregoing, the following guidelines shall govern the entry of passengers to the Philippines **beginning 01 May 2021**:

I. ALLOWED TO TRAVEL TO THE PHILIPPINES

1. Filipino citizens, including those with Identification Certificate (IC) as proof of recognition as a Filipino citizen or as proof of retention/reacquisition of Philippine citizenship under RA9225;
2. Foreign nationals with valid and existing visas at the time of entry;
3. Foreign nationals allowed entry under the Balikbayan Program (RA6768), provided they are nationals from non-visa required countries under EO408:
 - a. Former Filipino citizens, together with their foreign spouses and children, regardless of age, who are travelling with them;
 - b. Filipino citizens' spouses and children, regardless of age, who are travelling with them.
4. Foreign nationals who are holders of valid and existing Special Resident and Retirees Visa (SRRV) or Section 9(a) visas, provided they present, upon arrival, an entry exemption document issued by the Department of Foreign Affairs.

Except for Section 9(e) visa holders who are covered by a different testing and quarantine protocols, the entry of all other foreign nationals shall be subject to the following conditions:

- a. With pre-booked accommodation for at least seven (7) nights in an accredited quarantine hotel/facility; and
- b. Subject to COVID-19 testing at the quarantine hotel/ facility on the sixth (6th) day from date of arrival.

The pre-booked accommodation for at least seven (7) nights in a quarantine hotel accredited by the Department of Tourism (DOT) shall be presented for initial check at the immigration counters. Those who fail to present a pre-booked accommodation shall be denied entry and shall be boarded immediately in the next available flight.

Foreign nationals who were cleared for entry but subsequently found to have presented a counterfeit or fraudulent pre-booked accommodation upon validation by the DOT, or those who will violate the testing and quarantine protocols of the Department of Health, shall be subject to deportation.

APPENDIX

As of May 28, 2021 and
may be subject to change.

JAPAN

JAPAN COVID-19 NEWS

HIGHLIGHT NATIONWIDE

- The Japanese government has decided to place Okinawa Prefecture under a COVID-19 state emergency due to the rapid increase of cases.
- The government will decide whether to extend the emergency declarations for the nine prefectures of Hokkaido, Tokyo, Aichi, Kyoto, Osaka, Hyogo, Okayama, Hiroshima and Fukuoka, which have already been issued until May 31.
- The emergency declaration may be extended until June 20 for all 10 prefectures, including Okinawa.
- Pre-emergency measures remain in place covering Chiba, Saitama, Kanagawa, Ehime, Gifu, Mie, Ishikawa, Gunma and Kumamoto prefectures.
- The average number of new infections in Tokyo in the past seven days has decreased by 20% compared to the previous week

| AREA / NEW CASES | MAY 10 - 16 | MAY 17 - 23 | CHANGES (#) VS LW | CHANGES (%) VS LW |
|------------------|----------------|----------------|----------------------|----------------------|

JAPAN COVID-19 NEWS

MHLW NOTICE ON COVID-19 VACCINATION

Name of municipality

Notice on COVID-19 vaccination

Vaccination free of charge
(Fully funded by government)

Vaccination process

1 Confirm when you can be vaccinated

The COVID-19 vaccine will be administered sequentially to healthcare workers, the elderly, and those with underlying medical conditions. Please confirm the order of your vaccination and wait until your turn comes.

*Please wait for the announcement from the government. You can also check the Ministry of Health, Labor and Welfare website or the consultation counter in your municipality.
*Please refer to the reverse side for the scope of the elderly and people with underlying medical conditions.
*Although it is possible that there will be a short waiting period, we will make sure that all those who wish to receive the vaccine will be able to receive it in due course, so please be patient.

2 Find a medical institution or vaccination site

Look for a medical institution or vaccination site where you can receive the vaccine through PR from your city or town, or on the Internet.

For more information, please refer to the **COVID-19 Vaccine Navi** general information website on the right.

COVID-19 Vaccine Navi website address: <https://v-sys.mhlw.go.jp>

*You can contact your local municipality if you are unable to find a medical institution or vaccination site.
*The vaccine should be administered in the city, town, or village where your residency is registered (place of residence), except if you are hospitalized or admitted to a facility.
Please see the reverse side for information about vaccines outside of your registered address.
*It is not possible to make a reservation directly through the COVID-19 Vaccine Navi website.

COVID-19 Vaccine Navi secondary code

3 Make a reservation and get the vaccine

Please contact the medical institution or municipality where you want to receive the vaccine.

Designated medical institutions in your area: Make an appointment directly with a medical institution (by phone, Internet, etc.)

Vaccination sites in municipalities: Call center:

Things to bring: Coupon (enclosed in this notice) Identification documents (driver's license, health insurance card, etc.)

*Please measure your body temperature at home before the vaccine, and refrain from getting the vaccine and contact the municipal office or medical institution where you made the appointment if you have an obvious fever or do not feel well.
*Please wear clothes that make it easy to access your shoulders.
*In order to get the full effect of the vaccine, it is necessary to receive two doses of the same type of vaccine at a set interval. When you receive the first dose, please check when you should receive the next vaccination.
*The enclosed coupons are for two inoculation certificates or vaccination certificates. Bring this form with you each time, and please do not cut them off.

Start of vaccinations for the elderly

While vaccinations are scheduled to begin for those who will reach 65 years of age during FY 2021 (people born on or before April 1, 1957), the time period may be further divided.

What is a person with an underlying medical condition?

Vaccinations for people with underlying medical conditions will be started after the elderly. People with underlying medical conditions are defined as those who meet any of the following criteria (as of March 18, 2021).

- People with the following illnesses or conditions who receive outpatient or inpatient care
 - Chronic respiratory disease
 - Chronic heart disease (including hypertension)
 - Chronic kidney disease
 - Chronic liver disease (liver cirrhosis, etc.)
 - Diabetes being treated with insulin or medication, or diabetes associated with other diseases
 - Blood diseases (excluding iron deficiency anemia)
 - Diseases that impair the functioning of the immune system (including malignant tumors under treatment)
 - Receiving treatment that depresses the immune system, including steroids
 - Neurological and neuromuscular diseases associated with immune abnormalities
 - Decreased body functions due to neurological or neuromuscular diseases (including breathing disorders)
 - Chromosomal abnormality
 - Severe mental and physical disabilities (severe physical disabilities and severe intellectual disabilities)
 - Sleep apnea syndrome
 - Severe mental illness (hospitalized for treatment of mental illness, holding a mental disability certificate or falling under the category of "severe and continuous" in self-supporting medical care (psychiatric hospital care)) or intellectual disabilities (holding a rehabilitation certificate)
- Obese individuals who meet the criteria (BMI of 30 or higher)

BMI = Body weight (kg) ÷ height (m) ÷ height (m)
*Guideline for BMI of 30: height of 170cm and weight of 87kg, height of 160cm and weight of 77kg

Vaccination of workers in elderly care facilities will be started at the same time.

Vaccination at places other than the place where the resident card is registered (place of residence)

- If you are receiving the vaccine at a medical institution or facility where you are being hospitalized or admitted → Please consult with the medical institution or facility.
 - If you are receiving the vaccine at a medical institution where you are being treated for an underlying condition → Please consult with the medical institution.
 - If your residence is different from your address → You may be able to receive the vaccine in the area where you actually live.
- Please check the COVID-19 Vaccine Navi or contact the consultation office of the municipality in which you actually live.

Your consent is required to receive the vaccine

If you are currently undergoing treatment for a disease or have concerns about your health condition, please consult with your family doctor before deciding whether or not to receive the vaccine.

JAPAN COVID-19 NEWS

COVID-19 VARIANT IN JAPAN

BORDER MEASURES

- Tighten border control measures from India, Pakistan, Nepal, Bangladesh, Maldives, and Sri Lanka.

CASES UPDATES

- New cases: 8,760 from May 13 to 19
- About 97% cases are infected with virus N501Y found in the UK.

HIGHEST RECORD

- Tokyo: 6,645
- Osaka: 5,568
- Saitama: 1,796
- Confirmed in 47 prefectures

TOTAL INFECTION

- Domestic: 28,022
- Airport: 317
- Total 28,339 cases

WEEKLY TOTAL: MHLW JAPAN (DOMESTIC TRANSMISSION)

VARIANT OF COVID-19 IN JAPAN TOP 10 (AS OF MAY 19)

Data Source: Ministry of Health

HIGHLIGHT

- The Ministry of Health announced a total of 160 cases of Indian variant of COVID-19 were confirmed at airport quarantine from March 28 to May 7.
- The number of people infected with the variant of COVID-19 has exceeded 8,000 in the last week.
- The majority of new infections in Japan are caused by COVID-19 variants.
- Experts monitoring the situation in Tokyo say a more transmissible variant with the N501Y mutation accounted for more than half of infections.
- Tokyo Metropolitan Government has confirmed that 449 out of 556 people tested between May 13 and 17 were infected with N501Y (UK).
- Meijo University in Nagoya has developed a new technology that can identify which mutant strains are infected in about 90 minutes using a PCR test device and a new reagent.
- The new testing method can identify eight types of coronaviruses: UK type, the South African, Braille, Philippine, the Japan-specific, California type, and Indian type.

SOUTH KOREA

KOREA COVID-19 NEWS

HIGHLIGHT

- South Korea's daily new coronavirus cases stayed below 600 for the second straight day Monday on fewer tests over the weekend. The positive rate for two weeks is below 1%.
- Starting today, South Korea extended its tight social distancing scheme by three more weeks through June 13.
- South Korea is making efforts to keep the daily figure below 1,000 through end-June while speeding up inoculations of seniors.

COVID-19 VACCINATION STATUS

- A total of 3.79 million people, or 7.4 percent, have received their first shots. AstraZeneca's vaccine has been given to 2.06 million people, while 1.73 million have received that of Pfizer.
- South Korea extended its tight social distancing scheme by three more weeks through June 13. Currently, the greater Seoul area, home to more than half of the country's 52 million people, is under Level 2 social distancing, the third highest in the five-tier scheme, while the rest of the country is mostly subject to Level 1.5 distancing.
- The guidelines limit operating hours of restaurants and bars to 10 p.m., with gatherings of five or more people banned nationwide.

** Aim is 13 million by end of June and 36 million by September.*

VACCINATION STATUS FEB 26, 2021 - MAY 24, 2021

| Sporadic outbreaks | Community transmission begins | Full-blown community transmission | Nationwide epidemic begins | Full-blown nationwide epidemic |
| <ul style="list-style-type: none"> In-person class attendance capped at 2/3 of student with adjustments allowed Gatherings of over 500 people require prior consultations with local authorities. | <ul style="list-style-type: none"> Festivals and certain other types of gatherings with over 100 participants banned. Regular worship services allowed with indoor occupancy rate under 30%. | <ul style="list-style-type: none"> In-person class attendance capped at 1/3 of student. All gatherings of over 100 people banned. Some virus-prone facilities have to suspend business. Restaurants in greater Seoul and outside metropolitan area allowed to serve food until 10 pm. | <ul style="list-style-type: none"> In-person class attendance capped at 1/3 of student All gatherings of over 50 people banned. Virus-prone facilities closed business. Restaurants are opened until 9pm, Cafes are only allowed to serve takeout. Public transportation service reduced by 30%. All religious services move online. | <ul style="list-style-type: none"> All classes move online All gatherings of over 10 people banned. <div style="border: 1px solid purple; padding: 5px; margin-top: 10px;"> <p style="text-align: center;">Additional Measure (Jan 3~June 13)</p> <p>Gathering of five (5) or more people are banned.</p> </div> |

• The government extended current social distancing measures for another three weeks until June 13. (Seoul metropolitan area: Level 2 / other areas: Level 1.5) Also, gathering of five (5) or more people are banned until the same period, June 13.

KOREA PARTNERS WITH U.S. ON COVID-19 VACCINES

- South Korea is expected to assume a bigger presence in the global supply chain of COVID-19 vaccines.
- President Moon Jae-in and the US President Joe Biden agreed on a “comprehensive partnership” on COVID-19 vaccines.
- The summit was under pressure to bring US-made vaccines home faster amid a slow rollout and a resurgence in infections.

'NO SHOW' VACCINES CAN BE BOOKED THROUGH NAVER AND KAKAO

- KDCA announced plans to open real-time reservation system to get the job with “no-show vaccines” that remain unused at clinics and hospitals.
- No-show vaccine refers to doses of vaccine that remain unused as people cancelled vaccination after making reservation.
- Starting from May 27th, reservations for vaccines can be made through IT platforms such as Naver and Kakao.

S. KOREA APPROVES MODERNA VACCINE

- South Korea approved Moderna COVID-19 vaccine on May 21, as the country attempts to speed up its inoculation efforts.
- Moderna is the fourth COVID-19 vaccine to be approved in South Korea, following the doses developed by AstraZeneca, Pfizer and Johnson & Johnson.

297,000 PFIZER VACCINE DOSES FROM COVAX FACILITY ARRIVE AT INCHEON INT'L AIRPORT

- Two-hundred-ninety-seven-thousand doses of the Pfizer COVID-19 vaccine arrived South Korea, part of South Korea's deal with the COVAX Facility.
- They'll largely be used for the first shots for people over 75 who have been eligible to get vaccinated since April 1st.

CURRENT SOCIAL DISTANCING MEASURES TO EXTEND FOR THREE WEEKS

- The government will extend current social distancing measures, including the ban on gatherings of five or more people, for three more weeks.
- The greater Seoul area will remain under Level Two, the third highest in the five-tier system, with other parts of the country under Level One-point-Five. The current restrictions will be in place until June 13.

TRAVEL TRADE UPDATE

HONG KONG, SINGAPORE TRAVEL BUBBLE POSTPONED

- Hong Kong's and Singapore's governments once again have postponed the start of a quarantine-free travel bubble between the regions, following a Covid-19 outbreak in Singapore.
- The travel bubble was scheduled to begin May 26, but the governments announced to be made no later than June 13.

U.S. TO SEND 80 MILLION DOSES OF COVID-19 VACCINES OVERSEAS

- The United States will provide up to 80 million doses of COVID-19 vaccines to other countries by the end of June, president reiterating his pledge to turn his country into an "arsenal" of vaccines for the entire world.
- The president noted the number of vaccine doses to be sent overseas will be five times higher than those provided by any other country.

TAIWAN

TAIWAN COVID-19 NEWS

66 COVID-19 PATIENTS ON VENTILATORS, 270 SEVERE CASES: CECC

A total of 270 patients recently confirmed with COVID-19 have been classified as having severe cases of the disease, while 66 are currently on ventilators, the Central Epidemic Command Center (CECC) said Sunday.

The patients with severe cases of the disease account for about 9.7 percent of the 2,795 individuals reported as having contracted the disease between May 15-22, CECC advisor Chang said at a press briefing.

Of the 66 people on ventilators, two are also on extracorporeal membrane oxygenation (ECMO), Chang added.

Taiwan has imposed new restrictions including limits on gatherings in its capital as it battles its biggest coronavirus outbreak since the start of the pandemic last year.

People shop for tissues and toilet rolls at a supermarket in Taipei, Taiwan, on May 15, 2021.

TAIPEI BANS ALL ON-SITE DINING, DRINKING, STARTING MONDAY

Taipei City government on Sunday announced a ban on all on-site dining and drinking in the city starting Monday in response to the continued increase in domestically transmitted coronavirus cases in the capital city.

These outlets will only be allowed to serve takeout food or make deliveries starting next week, Taipei Mayor Ko announced. Operators who fail to comply will be fined NT\$3,000 (US\$107) to NT\$15,000 under the Communicable Disease Control Act, the city's Market Administration Office said.

TAIWAN THANKS U.S. LAWMAKERS FOR PUSHING TO SHARE VACCINES

- The Ministry of Foreign Affairs (MOFA) on Saturday thanked a bipartisan group of lawmakers in the United States Congress for urging Washington to share the country's surplus of COVID-19 vaccines with Taiwan.
- A letter signed by more than 60 Republicans and Democrats to Secretary of State Antony Blinken, which urges the U.S. government to help Taiwan with vaccine supply as it sees an uptick in COVID-19 cases, demonstrates the strong friendship between the U.S. Congress and Taiwan, the ministry said.
- The lawmakers, led by Republican Andy Barr, included Elise Stefanik from the same party and Democrat Brad Sherman, MOFA said.
- The ministry said it hopes the two countries can further strengthen their partnership in disease control in the future.

U.S. SUPPORTS TAIWAN'S ACCESS TO COVID-19 VACCINES

- Washington, May 20 (CNA) U.S. Health and Human Services (HHS) Secretary Xavier Becerra voiced his support on Thursday for Taiwan to access COVID-19 vaccines at a time when Taipei is fighting an escalation of domestically transmitted cases.
- Becerra released the message on the HHS Office of Global Affairs Twitter page after concluding a virtual meeting with Taiwan's health minister Chen, in which they exchanged views on global health issues, including the coronavirus pandemic.
- "The U.S. supports Taiwan's ability to access vaccines," Becerra said in the Twitter message. But the tweet did not say whether the U.S. will actually help Taiwan obtain vaccines.
- In a press conference in Taipei Friday, Chen said he asked Becerra for help with vaccine supply during their virtual meeting. The U.S. health secretary said he would take the matter to President Joe Biden, and promised that the U.S. would take into consideration Taiwan's needs when distributing its vaccines, according to Chen.

PHILIPPINES COVID-19 NEWS

LOCKDOWN IN CAPITAL EASED

As of May 14, President Rodrigo Duterte has eased a coronavirus lockdown in the bustling capital and adjacent provinces to fight economic recession and hunger but still barred public gatherings this month, when many Roman Catholic summer religious festivals are held.

DOH TO ENFORCE 'BRAND AGNOSTIC' POLICY TO PREVENT OVERCROWDING

The Department of Health will implement a policy in which the local governments will not announce in advance the brand of COVID-19 doses they will roll out in vaccination sites, Undersecretary Myrna Cabotaje announced. She explained this is to avoid incidents similar to what the local governments of Manila and Parañaque dealt with. Crowds trooped to inoculation sites in those cities where Pfizer-made vaccines are being offered.

Cabotaje said separately only healthcare workers were given the "right of first refusal" when there were only two brands available -- Sinovac and AstraZeneca -- at the start of their immunization in March.

PRC CLARIFIES IT'S NOT 'SELLING' MODERNA DOSES

The Philippine Red Cross said it is not selling Moderna's COVID-19 vaccine to the public, and will only make the doses available to its members and donors who are "willing to bear the cost." Clarification was made its chairman, Senator Richard Gordon said it will have to charge ₱3,500 for every two Moderna doses when its orders arrive. Gordon said the PRC purchased a total of 200,000 doses from American pharmaceutical firm Moderna, enough to give 100,000 people their first and second shots. Some 1,500 doses are expected to be delivered by July.

Share of people who received at least one dose of COVID-19 vaccine

Share of the total population that received at least one vaccine dose. This may not equal the share that are fully vaccinated if the vaccine requires two doses.

ADVISORY

PHILIPPINES EXTENDS COVID-19-RELATED QUARANTINE FOR INTERNATIONAL ARRIVALS

The Philippines has extended the quarantine period for international arrivals to a total of 14 days as of May 7 to stem the spread of COVID-19. Permitted arrivals will have to undergo quarantine at centralized facilities for 10 days, before quarantining for four more days at their residence. The country remains under Code Red Sublevel 2 on its code alert system, indicating ongoing local virus transmission with greater numbers of cases than the government can address, and community quarantine restrictions of varying levels remain in effect nationwide as of May 7.

DOH COUNTS ON PRIVATE SECTOR TO SPEED UP VACCINE ROLLOUT

The Department of Health (DOH) aims to ramp up vaccination efforts against COVID-19 with the help of the private sector, which will put up its own job sites and deploy health workers, Undersecretary Maria Rosario Vergeire said on Saturday.

The DOH also said it would deploy medical experts to help convince more people to get themselves inoculated, amid uncertainty among the public on the safety of vaccines as shown by a recent Social Weather Stations (SWS) survey.

The department announced these plans as it noted the pace of the vaccination drive picking up, as affirmed also by the National Task Force Against COVID-19 (NTF) on Saturday.

TAGUIG EYES INOCULATION OF 70% OF ELDERLY POPULATION

The Taguig City government is targeting to vaccinate at least 70% of its elderly population to protect these residents from the severe effects of the Covid-19 pandemic. Cayetano estimates the city's elderly population to be around 80,000 to 90,000 out of a total of 650,000 residents who are eligible for vaccination.

VACCINATION OF PUV DRIVERS, RIDERS CRUCIAL TO KEEP ECONOMY GOING

The inclusion of food delivery riders and public utility vehicle (PUV) drivers in the next priority list for Covid-19 vaccination will be crucial to keep the economy going. Senator Christopher "Bong" Go said in a statement that there is a need to recognize "the crucial role of food delivery riders amid the pandemic".

PH GETS 500K MORE CORONAVAC VACCINE DOSES

The Philippines on Thursday received 500,000 more doses of CoronaVac, bringing the country's total number of the China-made vaccine so far to 5.5 million.

The latest batch of government-procured CoronaVac, developed by Chinese pharmaceutical firm Sinovac Biotech, arrived at the Ninoy Aquino International Airport at 7:35 a.m. via a commercial Cebu Pacific flight.

NEXT DELIVERIES

The COVAX Facility will deliver 2.2 million of Pfizer-BioNTech and two million doses of AstraZeneca vaccines between May and June, according to Galvez.

"We are glad that we are seeing a quite stable delivery of vaccines," he said.

The government has allocated PHP82.5 billion for the procurement of vaccines, with PHP58 billion borrowed through the Asian Development Bank, World Bank, and Asian Infrastructure Investment Bank.

SWS: ONLY 3 OF 10 PINOYS WILLING TO GET COVID SHOTS

Only three out of 10 Filipinos are willing to get COVID-19 shots with the rest either still hesitating or outrightly refusing to be inoculated two months into the vaccine rollout in the country, according to a survey by Social Weather Stations (SWS).

The April 28 to May 2 poll found that 32 percent of adult Filipinos said they were willing to get vaccinated, 35 percent were uncertain and 33 percent were unwilling, SWS said in a report on Thursday.

The number of Filipinos willing to get vaccinated was smaller than the majority (51 percent) who said they had confidence in the government's evaluation of the vaccines. Only 31 percent were uncertain and 17 percent had no confidence at all.

The reason most cited by those uncertain about being vaccinated was their fear of possible side effects (39 percent). Others believe the shots are not safe or effective (21 percent) and that the vaccine might cause deaths (11 percent).
