OCTOBER 16, 2020

DOA BEGINS ACCEPTING CLAIMS OF THE COVID-19 BEREAVEMENT ASSISTANCE FUND

The Office of the Governor announces that, in accordance with Executive Order 2020-35, the Department of Administration (DOA) is now ready to accept claims under the COVID-19 Bereavement Assistance Fund.

The COVID-19 Bereavement Assistance Fund was established through Executive Order 2020-35 to assist the families of individuals who have died due to COVID-19 or COVID-19-related complications. This one-time grant is worth \$10,000 per decedent.

“As the number of deaths due to COVID-19 increases, too many individuals are facing both the incredible loss and the incredible financial burden associated with losing their loved ones. With each passing, I call the family to offer my condolences, and too many times during these calls, I hear their struggle to bury their loved ones in dignity,” said Governor Lou Leon Guerrero. “No family in mourning should have to worry about this. Creating the COVID-19 Bereavement Assistance Fund was the least we could do to help these families. ”

“Though no amount of material wealth can replace the life of a loved one, the COVID-19 Bereavement Assistance Fund was established to comfort families through this grieving process,” said Lieutenant Governor Josh Tenorio. “We hope this assistance will help relieve some of these unexpected financial burdens.”

Claim affidavits and instructions may be downloaded from the DOA website <http://hr.doa.guam.gov> or may be obtained from the Benefits Section at the ITC Building (475-1103). Completed claims should be filed with the Benefits Section of DOA. DOA expects to disburse funds within five days of a fully completed claim.

GUAM POLICE DEPARTMENT CUSTOMER SERVICE UPDATE

On Monday, October 12, 2020, the Guam Police Department (GPD) will begin to provide the following limited services by appointment only RECORDS AND IDENTIFICATION SECTION (RIDS) - ITC Building, Tamuning Available Monday - Friday between the hours of 8:00 a.m. - 12:00 p.m. for:

INTRODUCTION OF BILL 373-35

ELIMINATING ALL DISPOSABLE BAGS

Senators discussed a revised bill that would eliminate all disposable bags by January 2021 during a public hearing Tuesday morning (October 13, 2020).

Bill 373-35, introduced by Senator Régine Biscoe Lee and co-sponsored by the majority of the 35th Guam Legislature, seeks to expand a ban on carryout plastic bags sold or distributed by grocery stores.

Lee initially introduced on the use of disposable carryout plastic grocery bags out of environmental concerns. It was signed into law in 2018. The ban goes into effect January 1, 2021.

Guam law has already set the January 2021 date to eliminate all disposable plastic bags, but the law allows the use of disposable bags made of paper or from biodegradable plastic bags.

There are some exceptions in the law for the use of plastic bags by retailers and wholesalers, such as for the distribution of newspapers or flowers.

The revision of the bill takes into consideration that paper bags are also harmful to the environment and can take up more volume in the landfill and take four times as much energy to produce than plastic bags.

UNIVERSITY OF GUAM PAUSES CLASSES

The University of Guam will pause all virtual classes and meetings October 28, 2020 to November 3, 2020 and use it as a time to catch up and recharge.

During that week:

- Classes will not meet
- All deadlines and due dates for that week will be adjusted, and arrangements will be prior to the break
- Students may still report to internships and practicums to meet contact hours;
- Library services will be available
- Deans' offices will be open
- Student services such as advisement, student life, student health, and other will be available
- The Triton Store will be open for curbside pick-up and online sales at www.tritonstore.gu
- All other UOG operations will continue

DOWNLOAD THE COVID ALERT MOBILE APP

HOW IT WORKS

GUAM COVID ALERT uses Bluetooth Low Energy (BLE) technology to quickly notify users who have likely been exposed so you can reduce the risk of infection for your friends and family and help Guam stop the spread.

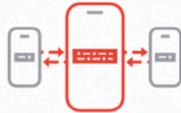

STEP 1

Download the free app [iPhone App Store](#) or [Android Google Play Store](#).

STEP 2

Once you opt-in to the notification system, the Exposure Notifications System will generate a privacy-preserving "random key" for your device. To help ensure these privacy-preserving "random keys" can't be used to identify you or your location, they change every 10-20 minutes.

STEP 3

Your phone and the phones around you will work in the background, without draining your battery or data, to exchange these privacy-preserving random keys via Bluetooth Low Energy (BLE) technology. This is a passive process that begins once you opt-in and functions without the app open.

STEP 4

On a daily basis, your phone downloads a list of all the random keys associated with positive COVID-19 cases and checks them against the list of random keys it has encountered in the last 14 days.

STEP 5

If there's a match, the app will notify you with further instructions from your public health authority on how to keep you and the people around you safe.

WORKATION

Promoting Work-Life Balance in Japan

Government officials and managers are pushing a new way of working that combines business and leisure - the "workation". The concept makes it easier for workers to enjoy longer holidays and helps to improve their work-life balance. Companies benefit too, by getting more productivity and creativity from their employees.

- ▶ Enjoy longer holidays
- ▶ Join a meeting by video conference
- ▶ New project proposal
- ▶ Improve work-life balance

Travel with your family and friends	Take a long vacation
Creative ideas	Save on travel expenses

RESUMING CROSS-BORDER TRAVEL

- ▶ Japanese Government
- ▶ Resume International Travel
- ▶ Revive the Economy

GOVERNMENT DECISION

- Announcement: September 25
- Relax border restrictions to/from Japan

COUNTRIES & REGION

Foreign nationals on the denied entry list

PURPOSE

Resume economic activities between Japan and other countries

TARGET

- Businesspeople
- International students
- Medium and long-term

SCHEME (RULES & CONDITIONS)

Residence Track

BEFORE ENTRY INTO JAPAN

INBOUND

- Apply for visa or re-entry confirmation letter at Japan's overseas establishment like Japanese embassy
- 14-days health monitoring until leaving home countries
- Obtaining a certificate of pre-entry testing result before entry
- Take out travel insurance covering medical expenses during stay in Japan

UPON ARRIVAL

- Answer and submit a questionnaire (health condition)
- Require to take PCR or Antigen test
- Submit a certificate of pre-entry testing result
- Submit schedule of activities in Japan.
- Install COVID-19 contact tracing App (COCOA)

AFTER ENTRY INTO JAPAN

- 14 days quarantine at home or a place designated by government
- Retaining location data for 14 days after entering to Japan
- Refraining from using public transportation

BEFORE ENTRY INTO X COUNTRY

OUTBOUND

- Apply for visa at the embassy in Japan
- 14-days health monitoring until departure
- Obtaining a certificate of pre-entry testing result
- Necessary procedures differ by country to depart

UPON ARRIVAL

- Require to take PCR or Antigen test
- Entry procedures may be different in each country

AFTER ENTRY INTO JAPAN

- Quarantine measures taken by each country (example 14 days isolation)

BUSINESS TRACK & RESIDENCE TRACK: SOUTH KOREA

BUSINESS TRACK: SHORT-TERM

- Short-term business travelers
- Obtaining visa or a certificate of re-entry permission at Embassy of Japan (Consulate General) in Korea
- Submit schedule of activities in Japan
- Monitoring health condition for 14 days before departure
- Obtaining a negative COVID-19 test certificate within 72 hours before departure and buy a travel insurance
- Take PCR or Antigen test upon arrival at the airport in Japan
- Retaining location data for 14 days after entering to Japan
- Refraining from using public transportation

RESIDENCE TRACK: LONG-TERM

- Long-term residence with a status of residence (dispatch or rotation within business personnel)
- Obtaining visa in Korea
- Monitoring health condition for 14 days before departure
- Obtaining a negative COVID-19 test certificate within 72 hours before departure and buy a travel insurance
- Obtaining a certificate of pre-entry test result before entry
- Take PCR or Antigen test upon arrival at the airport in Japan
- Retaining location data for 14 days after entering to Japan
- Refraining from using public transportation

SOUTH KOREA

HIGHLIGHT

- South Korea's new virus cases spiked again Monday, though the daily tally stayed below 100 for the fifth consecutive day, as the country eased its tougher social distancing measures.
- The country added 97 COVID-19 cases on October 12, including 68 local infections, raising the total caseload to 24,703, according to the Korea Disease Control and Prevention Agency (KDCA).
- Starting Monday, the country eased its social distancing scheme by one notch to Level 1, allowing people to normalize most of their daily activities while taking basic precautions.

SOUTH KOREA TO EASE SOCIAL DISTANCING TO LOWEST LEVEL

Nationwide social distancing restrictions will be relaxed to Level 1 starting October 12, although most requirements for cafes and high-risk businesses in the greater Seoul area will be maintained.

The average number of local infections fell to less than 60 on a daily basis over the past two weeks and the reproduction rate declined to 'below 1,' which shows positive signs when it comes to controlling the outbreak.

Under the eased measures, gatherings of 50 or more people at 10 kinds of indoor facilities, such as karaoke and gyms will be allowed. However, people must follow precautionary measures such as wearing face masks and keeping entry logs.

Some measures will remain in place for the greater Seoul area where a fall in new cases has been relatively slow. Thus, seating arrangements based on social distancing will stay at cafes and restaurants.

SOUTH KOREA AND JAPAN TO OPEN BORDERS FOR BUSINESS FROM OCTOBER 8

The South Korean and Japanese governments agreed to implement special entry for entrepreneurs starting from Oct 8.

Japan and South Korea will reopen borders to each other for business trips from October 8, a move that may help improve relations between two countries.

Under the bilateral agreement, travelers on short-term business trips will not be required to observe 14-day self-isolation periods if they test negative for COVID-19 and submit travel itineraries upon entry, among other preventive measures.

Expatriates and other long-term residents will be allowed to enter on condition that they remain in isolation for two weeks.

TRAVEL TRADE NEWS

AIRASIA WITHDRAW BUSINESS IN JAPAN

AirAsia will discontinue flight operations from Japan starting from December 5 because of the largest loss amid the COVID-19 outbreak.

Almost every staffs will be dismissed from November and AirAsia will fully refund the amount for consumers who purchased air tickets on the ceased operation period.

This is the first time to terminate business in Japan among airlines.

TRAVEL TRADE NEWS

SKYLINE TOUR CONSIDERS DUTY FREE SHOPPING

A special package 'Skyline Tour' is one of the trends in tourism industry to recover the tourism market amid COVID-19. Passengers experience sky travel on the plane without landing anywhere.

Since the tour is limited to domestic, passengers are not able to experience duty free shopping. However, the Ministry of Land, Infrastructure and Transport is negotiating with Korea Customs Service and the Ministry of Justice to consider to allow duty free shopping for skyline tour passengers.

KOREAN LCC, AIR PREMIA AND AIR BUSAN IMPLEMENTED UNPAID LEAVE DUE TO COVID-19

Newly established Korean LCC 'Air Premia' planned to launch flights from Korea to Vietnam within this year and LA for next year but it's all canceled due to COVID-19 pandemic.

Air Premia and Air Busan will implement unpaid leave starting from October and November, respectively.

TAIWAN

TAIWAN TO OPEN BORDERS TO PALAU IN FIRST 'TRAVEL BUBBLE'

Taiwan is in talks with its Pacific ally Palau to form a “travel bubble” for bilateral tourism, the first such arrangement since the country banned inbound and outbound tour groups in March due to the COVID-19 pandemic.

Reported by CAN, the proposal, discussed in meetings last week, will waive quarantine measures for tourists from both sides. The group tours must be operated by travel agencies and visitors are required to present a negative result for a coronavirus PCR test.
